Preliminary Amendment

REMARKS

Claims 1-16 are pending in the application. All the claims have been amended. No new matter is added through these added claims.

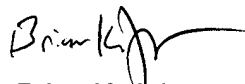

Amendments to the Claims

Certain amendments to the claims have been made to present them in a format that conforms with USPTO claim requirements and more properly represent the applicant's invention. These changes have not been made in response to any objections to the patentability of the claims, including but not limited to, the Preliminary Examination report provided as part of the PCT application process. No new matter has been added through these amendments.

Conclusion

In view of the foregoing remarks, Applicants submit that all of the claims are patentably distinct from the prior art of record and are in condition for allowance. The Examiner is invited to contact the undersigned at the telephone number listed below, if needed. Applicants hereby make a written petition for extension of time, if needed. Please charge any deficiencies and credit any overpayment of fees to Deposit Account No. 19-2179.

Respectfully submitted,
